

Experiencing

Leadfest 2020

as a team

Some ideas...

1. Explore Leadfest as individuals and then come together afterwards and each do a 5-10min activity/show and tell to share with the team what you learned and how you are going to apply it.
2. Ask yourselves how Leadfest could help you with your team goal?
3. Take a topic as a team e.g. Wellbeing, relationships, inclusion and explore it individually and then come back and share.
4. Attend a leaders unplugged session together and then have a follow up conversation about what you learned and how you could apply it.
5. Explore our playlist content together when it comes out (13th July) and have a conversation on what you could all do with the learning.
